

## Wednesday 18/09/2013

Morning Workshops				
09:00 12:00	The Patient focused approach, The base for Integrated care  Presented By: Jacob HofDijk, Anne Christine de Zwart  Profiling innovations enhancing patient safety  Presented By: Jacob HofDijk, Esther Peelen	Smooth Introduction to Casemix  Presented By: Prof. Dr. Jean Marie Rodrigues	Advances in Predictive Modelling: Use on Population Health Management  Presented by Stephen Sutch, Dr. Karen Kinder, Chad Abrams	Patient Costing - everything you need to know  Presented By: Nigel Michell Patrick Power
12:00 13:00	Time for Lunch			
Afternoon Workshops				
13:00 16:00	Maintenance of casemix systems and the development tools  Presented by: Martti Virtanen	Casemix to clinics  Presented By: Michael Wilke	Practical applications for the ACG Case-Mix System in Nordic Context  Presented By: Marcus Lindvall, Dr. Karen Kinder, Andreas Johansson	Using a business intelligence tool to interrogate and analyse patient costing data  Presented By: Nigel Michell Patrick Power
18:30 20:00	Welcome Reception			

## Thursday 19/09/2013

09:00 10:30	Welcome President of the PCSI Minna-Liisa Sjöblom (ChairPerson of the Local Organising Committee) Päivi Sillanaukee (Permanent Secretary of the Ministry of Social Affairs and Health, Finland)			
	Reforms in Finland - Aki Linden			
10:30 11:00	Poster Break with Coffee			
11:00 12:30	Structural Reform I Chair : XXX Australian Subacute and Non-Acute Patient data set implementation in the 'greenfields' of Western Australian Health - Amanda Ling New South Wales Health Cost Accounting Guidelines: Breaking the silos - Alfa D'Amato Introducing a national Activity Based Funding system in Australia - James Downie Improving Transparency of Recalibration of Thai DRG version 5.2 - Supasit Pannarunothai	Data Quality I Chair : XXX "The Dutch DBC-system, built for transparency in Dutch health care. An outline of successes and pitfalls - Joost Warners Paying for High Quality Hospital Care: What Might it Mean? - Trafford Crump The application of a casemix adjustment for the estimation of hospital standardised mortality ratios (HSMR) - Miriam Wiley Analysis of hospital outputs in Yunnan province using Thai DRG model - Zhao Keying	Cost Calculation I Chair : XXX Case costing and cost per patient for breast cancer in the western region of Sweden - Anna Genell Simplifying and Stabilizing Cost Weight Calculations Through Reduction of Age Groups - Craig Homan The accuracy of DRGs to identify cases of visual impairment in hospital admissions: volume, mix and costs - Ana Marques The Calibration of Predictive Models to Support All-Age Groupings - Chad Abrams	
12:30 13:30	Lunch			
13:30 14:30	Reforms in the US - Gerald Kominski			
14:30 14:50	Poster Break with Coffee			
14:50 16:20	Structural Reform II Chair : XXX Baby Delivery with Different Resource Utilization in Yunnan Province Using Thai DRGs methodology - Huiying Sun DRG Data for Health Reform Purposes - Peter Brosch Model to create transparency through welfare services - Pirkko Kortekangas Medicines and Diagnostics :Role in Pushing Care Seekers to Impoverishment - Rony Rajan	Coding Chair : XXX Towards a multi-healthcare Terminological system based on a common ontology - Jean Marie Rodrigues Technological innovation and coding practices: state of the art in Italy - Giuditta Callea Data quality assurance – statistical methods for the identification of suspicious data sets - Karl Pfeiffer Medical and Nursing Registration : Teamplayers ? - André Orban	Casemix and Policy I Chair : XXX How to Pay for Performance in Norway - Fredrik Arneberg Curbing Moral Hazards of Providers in Development of Top-up Payment for UNU-CBG Casemix Tariff in Malaysia and Indonesia - Syed Aljunid The French classification in non acute care - Sandra Gomez "Money Follows the Patient" - Moving to Activity Based Funding in Ireland. Progress to date - Brian Donovan Transparency of casemix costing data as a strategic planning measurement for APEX status hospital University in Malaysia - Rosminah Mohamed	
16:30 17:30	Poster Session			

## Friday 20/09/2013

09:00 10:30	Primary Care in Denmark - Svend Særkjær		
	PCSI General Assembly (part 1)		
10:30 11:00	Poster Break with Coffee		
11:00 12:00	<p>Casemix and Policy II Chair : XXX Vital Statistics for Your Casemix System - Christopher Aisbett Forecasting Emergency Department Admissions as a Tool for Improved Health Service - Marianne Sarazin Using DRG Database to Suggest Location for Excellence Heart Centre in Thailand - Kanchit Sooknark</p>	<p>Casemix Care I Chair : XXX Using episodes of care to reveal regional variation in costs and outcomes for stroke - Erik Hellsten Primary Care Diagnosis Related Groups, pDRG, as a tool for primary care decision makers - Elina Hermiö New Tools for Understanding and Managing Population Health - K. Kinder</p>	<p>Cost Calculation II Chair : XXX Including the costs of capital financing and capital consumption in case-mix funding in Qatar. - Peter Donnelly Trimming for Low Cost Outliers in DRG - Hector Reyes Culture and healthcare accounting: what are we really measuring? - Iris Bosa</p>
12:00 13:00	Lunch		
13:00 14:00	<p>Casemix and Policy III Chair : XXX Effective use of health data – analysing elderly patients' clinical pathways - Päivi Ovaskainen Need to define patients at risk : preliminary analysis. - Claire Beguin Validation of Adjusted Clinical Groups (ACGs) case-mix system for predicting healthcare costs: use and comparison of diagnosis-based and drug-based morbidity groups. - Elena Schievano</p>	<p>Information Systems and Casemix Chair : XXX Diagnosis Related Groups (DRG) Grouping Standards - Lily Wang Saving costs by using infection management analyses based on DRG - routine data - Michael Wilke The use of ICT in hospitals: a Portuguese backstage analysis - Rita Mendes</p>	<p>Data Quality II Chair : XXX Building a signaling system to improve coding accuracy - Christophe Fierens Transparency of Hospital Productivity Benchmarking: A Comparison of Neurology Productivity in Two Finnish Hospital Districts - Sami Laine Patient-Reported Outcomes: Opportunities and Limitations - Trafford Crump</p>
14:00 14:20	Poster Break with Coffee		
14:20 16:30	The NHS in England: shape of the structural reforms and the focus on transparency- Veena Raleigh		
	PCSI General Assembly (part 2)		
19:30	Gala Dinner		

## Saturday 21/09/2013

09:00 10:30	<p>International Experience with Casemix Chair : XXX Hospital productivity in Europe - some comparisons between Portugal, England and Slovenia - Ceu Mateus Leveraging casemix data to increase transparency in healthcare – the Singapore experience - Eng Kok Lim The Impact of Hospital-Acquired Infections on Hospital Reimbursement - A comparison of the French and German DRG System - Michael Wilke Methodology for adjust relative weight of Thai Diagnosis Related Group version 5 - Nilawan Upakdee The Case of Small Jurisdictions; Adaptations to the Australian Activity Based Funding Model for Tasmania - Kevin Ratcliffe</p>	<p>General Casemix Chair : XXX Harnessing Clinician Input to Shape a Case Mix Funding System for Hip Fracture - Erik Hellsten Introducing activity-based payment in the hospital: Evidence from French data - Engin Yilmaz Developing an Additional Index of Staff Productivity using Casemix information - Deacons Yeung The creation of new models to predict future resource use and future risk of hospital admission for a general population in NHS England - Stephen Sutch</p>	<p>Casemix Care II Chair : XXX The use of General Practitioners (GPs) clinical database records improves the comorbidity description: the Veneto ACG project. - Maria Chiara Corti Patient Focused Episodes: an innovative blending of Ambulatory Encounter, Inpatient Encounter and Population Based Groupers - Marc Berlinguet Patient Risk Estimation Using Information of the International Classification of Functioning, Disability and Health - Jiro Okochi pDRG - Finnish casemix model for primary care - Martti Virtanen</p>
10:30 11:00	Poster Break with Coffee		
11:00 12:00	The Evolution of Case Mix—A Perspective from Canada - Douglas Yeo		
12:00 12:30	Closing ceremony
