The Hague

Conference 2015

14–17 October 2015

Towards sustainable health
and social care systems

● THE CONFERENCE

The 31st annual Patient Classification Systems International (PCSI) Conference: **Towards sustainable health and social care systems** will focus on issues that top the health and social care agendas – case mix, health information, personalised health care, value-based approaches, assessment and appropriate funding. In keeping with the tradition of PCSI events, the conference will provide opportunities for inspiring scientific work, unique social commitments and invaluable networking.

● AUDIENCE

The annual conference is the primary PCSI event, where case mix researchers, analysts, professional organizations active in health and social care, government officials and many others gather to discuss recent developments in case mix.

Participants will present and learn the latest in case mix concepts from their peers through oral and poster presentation sessions. The event also allows for informal meetings of the minds between a wide range of individuals.

In addition to the many learning opportunities, the annual conference is perfect for socializing with friends and colleagues from around the globe.

The Grand Hotel Amrâth Kurhaus
Scheveningen The Hague
will be the venue for the PCSI 2015
Conference: a grand hotel experience in a
historic ambiance working on the future of
health care.

You will receive the official invitation with
direct link to register and submit your
contribution to the programme soon.

We look forward to meeting you
14–17 October 2015!
