

31st PCSI Conference Programme The Hague, The Netherlands

Wednesday	9.00-12.00	Registration					
	9.00-12.00	<i>Room: TBA</i> Workshop 1 <i>Clinical Coding: Approaches, Observations and Audit</i> <i>DHHS Tasmania, Australia</i>	9.00-12.00	<i>Room: TBA</i> Workshop 2 <i>A smooth introduction to case mix for newcomers (in French)</i> <i>PCSI Committee</i>	9.00-12.00	<i>Room: TBA</i> Workshop 3 <i>Business Analytics for Creating Insight in Healthcare</i> <i>NSW Ministry of Health (Australia)</i>	9.00-12.00
	12.00-13.00	Lunch					
	13.00-16.00	<i>Room: TBA</i> Workshop 4 <i>Patient Costing - Everything you need to know!</i> <i>Powerhealth Solutions</i>	13.00-16.00	<i>Room: TBA</i> Workshop 5 <i>Improving Population Health Management through Risk Adjustment</i> <i>Johns Hopkins University, Johns Hopkins HealthCare Solutions</i>	13.00-16.00	<i>Room: TBA</i> Workshop 6 <i>Using Data in Hospital Quality Improvement,</i> <i>Ramsay Health, Western Australia and University of Melbourne, Australia</i>	13.00-16.00
	18.00	Welcome Reception at Conference Venue					

Thursday

8.00-9.00

Registration

9.00-9.30

Conference Opening and Welcome
Ministry of Health (The Netherlands)

Keynote Speakers

Joost Warners, Unit manager NZA

Topic of presentation: TBA

Coen van de Steeg, Co-founder WeHelpen

Topic of presentation: Healthcare innovation in the community at the local level

Special contribution by **Bas Bloem**, Medical Director Parkinson Center Nijmegen

Chair: Dana Burduja

9.30-10.30

Coffee Break

Poster Sessions & Meet the Sponsors

10.30-11.00

*Room: Jacob Pronk
Chair: Terri Jackson*

*Room: Koos Speenhof 1
Chair: Douglas Yeo*

*Room: Goldbeck
Chair: Husein Reka*

*Room: Koos Speenhof 2
Chair: Kristiina Kahur*

11.00-12.30

Casemix funding/ payment systems and methods 1

The development and implementation of a national Activity Based Funding System in Australia - 4 year progress report
James Downie

Developing an alternative funding model for small and regional hospitals
Conrad Kobel

Casemix systems and patient's needs: A systematic literature review on the value of functioning information in reimbursement systems
Maren Hopfe

Monitoring domestic hospital expenses
Evelyn Van Lochem

11.00-12.30

Population-based classification systems and applications

Patient Segmentation for Population Health Management Using CRGs
Herbert Fillmore

Measuring and understanding patient coordination across the healthcare continuum
Stephen Sutch

Case Finding & Population Profiling – Separate Disciplines or Both Sides of the Same Coin?
Alan Thompson

Healthcare Databases and Population Based Case-Mix Systems to Support Decision Makers on Heart Failure Management in an Italian Region
Pietro Barbieri

11.00-12.30

Costing health care activities and casemix applications 1

Improvement of cost allocation in gastroenterology by introduction of a novel service catalogue covering the complete spectrum of endoscopic procedures
Markus Rathmayer

The potential for improvement of patient cost data by using decentralized data on the consumption of medicine in a centralized setting
Janne Refnov

French national costing in long-term care for the elderly: first steps of implementation.
M-Caroline Clement

The Estimation of Nursing Cost and Nursing Service Weights of Malaysian DRG (MY-DRG) in a Teaching Hospital, Universiti Kebangsaan Malaysia Medical Centre (UKMMC)
Syed Aljunid

11.00-12.30

Coding, terminology and clinical classifications 1

Moving towards ICD-10 in Belgium at the expense of ICD-9 coded data?
André Orban

Clinical coder exam in Sweden. A first try
Olafr Steinum

Apraisal Methodology in Computer Assisted Coding
Oktavian Weiser

Possible benefits and challenges for the implementation of the ICD-10 in the Dutch hospital reimbursement system
Martijn Hessels

12.30-13.30

Lunch

13.30-14.30

Keynote Speaker

Tevfik Bedirha Ustun, Coordinator Classifications, Terminologies and Standards at the World Health Organization

Topic of presentation: ICD developments

Chair: Jean-Marie Rodrigues

14.30-15.00

Coffee Break

Poster Sessions & Meet the Sponsors

Thursday	15.00-17.00	<p><i>Room: Jacob Pronk</i> <i>Chair: Deniza Mazevska</i></p> <p>Casemix classification systems and applications for all health care types 1</p> <p>Implementing the Episode Clinical Complexity Model into the Australian Refined Diagnosis Related Groups classification for Version 8.0 Vera Dimitropoulos</p> <p>A New System to Classify Rehabilitation Facilities Outpatients for Financing Purposes Claudia Borges</p> <p>The Evolution of an Inpatient Grouping Methodology – CMG+, Doing More with Less Craig Homan</p> <p>Separation of systematic differences in casemix for better predictability of DRG classification in emergency hospitals Michael Hogberg</p> <p>Development of Thai Ambulatory Casemix for Continuous Care Version 0.1 Nilawan Upakdee</p> <p>Better understanding Penalties on Inpatient Readmissions: the role of Clinically Based Parameters André Orban</p>	15.00-16.00	<p><i>Room: Koos Speenhof 1</i> <i>Chair: Olaf Steinum</i></p> <p>Coding, terminology and clinical classifications 2</p> <p>Harmonization between ICD-11 and SNOMED CT Jean marie Rodrigues</p> <p>Belgium: from ICD-9-CM to ICD-10-CM/PCS – how a hospital prepares Peter Heirman</p> <p>First national baseline clinical coding audit in Qatar – results and insights Husein Reka</p>	15.00-17.00	<p><i>Room: Goldbeck</i> <i>Chair: Janette Green</i></p> <p>General Casemix 1</p> <p>Malaysian Diagnosis Related Group (MY-DRG): Development of Cost And Service Weights For Radiological Procedures At Universiti Kebangsaan Malaysia Medical Centre (UKMMC) Syed Aljunid</p> <p>'Mind The Gap' – Assisting hospitals challenged by the introduction of Activity Based Funding Mark O'Connor</p> <p>Lost in AR DRG Translation – the story from Croatia Karolina Kalanj</p> <p>Optimizing clinical treatment using DRG routine data – the PCT study Michael Wilke</p> <p>Knowledge and Perceptions on Casemix System Among Information Technology Staff of Hospitals in Malaysia and Indonesia Syed Hamzah</p>	15.00-17.00	<p><i>Room: Koos Speenhof 2</i> <i>Chair: TBA</i></p> <p>Caring Village Track</p> <p>Introduction to the Caring Village concept Jacob Hofdijk, Partner in Casemix</p> <p>Identifying research dimensions of the implementation of innovations for chronic diseases (IMPLEMENT program) Mark Bloemendaal, Founder and CEO Implementation IQ</p> <p>The change towards a Sustainable Health Care System by investing in health from Vision to Action Thomas Plochg, Director at The Netherlands Public Health Federation</p> <p>Unlocking the societal capital Coen van de Steeg, Co-founder WeHelpen</p> <p>Integrating eHealth in health care, and how persuasive designs can contribute to engage and motivate persons to use eHealth Lisette van Gemert-Pijnen, Associate Professor at the University of Twente</p>
		17.00-18.00	<p>Poster Sessions <i>Join the presenters of posters as they outline their work</i></p>					
		Evening	<p>Excursion: City Tour & Dinner The Hague (optional)</p>					

Friday

8.00-9.00

Registration

9.00-10.00

Keynote Speaker

Machteld A.S. Huber MD PhD, MD and senior researcher at the Louis Bolk Institute
Topic of presentation: A new dynamic concept of health
Chair: Jugna Shah

10.00-10.30

PCSI General Assembly Part 1 and Presentation of Candidates for Election

10.30-11.00

Coffee Break

Poster Sessions & Meet the Sponsors

Room: Jacob Pronk
Chair: Joost Zuurbier

Room: Koos Speenhof 1
Chair: Martti Virtanen

Room: Goldbeck
Chair: Stephen Sutch

Room: Koos Speenhof 2
Chair: TBA

11.00-12.00

Costing health care activities and casemix applications 2

11.00-12.00

Integrated care models, including across health and social care 1

11.00-12.00

Population Grouping: The Canadian Experience

11.00-12.00

Caring Village Track

Assuring the accessibility of health care in the Netherlands: combining subsidies and DBC's
Harm Lieverdink

A method for comparing coding practice between different hospitals in Norway.
Eivind Dalgard & Olav Lenvik

Costing the patient not the classification (UK, Australia, Middle East)
Gavin Mowling

Payment systems to incentivize integrated care for patients with a hip fracture in an acute setting
Jim Pearse

Use of the Casemix System Outcome in Restructuring the Teaching Hospital Administration to Improve Efficiency and Quality for Sustainable Health Care
Rosminah Mohamed

Payment Development for Thai Traditional Medicine Inpatient Casemix, TTMIC
Orathai Khiaocharoen

Presented by
Douglas Yeo, Holly Homan, Craig Homan, and Victoria Zhu

The Journey so Far in Developing a Canadian Population Grouping Methodology

Health Condition Categories for a Canadian Population Grouping Methodology

Cost Weights for a Canadian Population Grouping Methodology

A Mutually Exclusive Classification for a Canadian Population Grouping Methodology

12.00-13.00

Lunch

13.00-14.00

Keynote speaker

Dr Mary Baker MBE, Immediate Past President of the European Brain Council
Topic of presentation: Appropriate funding in relation to integrated care
Chair: Jacob Hofdijk

14.00-14.30

Coffee Break

Poster Sessions & Meet the Sponsors

Friday	14.30-16.30	<p><i>Room: Jacob Pronk</i> <i>Chair: Paula Monteith</i></p> <p>Casemix funding/ payment systems and methods 2</p> <p>Implementing Activity Based Funding in Ireland Brian Donovan</p> <p>The U.S. Medicare Program's Quest to Obtain Value for Money Spent: Tying Case-Mix Payments to Performance, Quality, and Efficiency Jugna Shah</p> <p>Hospital contracting and casemix linkage: early impact in a middle-income country Jade Khalife</p> <p>Deriving quality of care indicators from routine data & embed quality in financing, a way towards sustainable health in Belgium Chantal Licoppe</p> <p>Rehabilitation service development for sub-acute and non-acute patients in Thailand Orathai Khiaocharoen</p>	14.30-15.30	<p><i>Room: Koos Speenhof 1</i> <i>Chair: Syed Aljunid</i></p> <p>Integrated care models, including across health and social care 2</p> <p>First steps towards subpopulation funding for integrated care Jacob Hofdijk</p> <p>Growing towards an integrated perinatal healthcare system Marnix van den Berg</p> <p>A Comparative Analysis of Proxy Measures for Coordination of Care within a South African Insured Population Jessica Nurick</p>	14.30-16.30	<p><i>Room: Goldbeck</i> <i>Chair: Jiro Okochi</i></p> <p>Casemix classification systems and applications for all health care types 2</p> <p>Development of AN-SNAP V4 to Classify Subacute and Non-acute care Janette Green</p> <p>Development of DRG logic for Multiple Significant Trauma patients in cooperation with Nordic countries Kristiina Kahur</p> <p>Developing a mental health classification system in Australia James Downie</p> <p>The French medico-administrative database for psychiatric care: the RIM-P Anis Ellini</p> <p>From understanding to decision making - experience from BIH Karolina Kalanj</p> <p>Is it possible to replace ICD 9 CM Vol 3 by International Classification of Health Interventions (ICHI) in Casemix groupers?: a test with UNU-CBG grouper Béatrice Trombert</p>	14.15-16.30	<p><i>Room: Koos Speenhof 2</i> <i>Chair: TBA</i></p> <p>Caring Village Track</p>	
		<p>Enhancing end of life management Sharon Naidoo</p>		15.30-16.30		<p><i>Room: Koos Speenhof 1</i> <i>Chair: TBA</i></p> <p>Panel Discussion on Integrated care</p>			
		16.30-17.30				PCSI General Assembly Part 2			
		Evening		Conference Dinner (optional) <i>Announcement of new members to the PCSI Executive Committee</i>					

Saturday	8.00-9.00	Registration			
		<i>Room:</i>			
		The International Casemix Panel			
		Kevin Ratcliffe (DHHS Tasmania, Australia)			
		Supasit Pannarunothai (Naresuan University, Thailand)			
	9.00-10.00	Jugna Shah (Nimitt Consulting Inc., United States of America)			
		Douglas Yeo (Canadian Institute of Health Information, Canada)			
		James Ravindran (Quality Reimbursement Services, United States)			
		Moderator: Jacob Hofdijk (Casemix, Netherlands)			
		Initiator: Thomas Schongalla (Quality Reimbursement Services, United States)			
	Keynote speaker				
10.00-11.00	Chiel Bos , Founder of the eHealth Academy and Chair of the Steering Committee of the Dutch Ministry of Health, Welfare and Sport on waste in healthcare				
	Topic of presentation: Waste in healthcare in relation to expensive drugs				
	Chair: Stephen Sutch				
11.00-11.30	Coffee Break				
	Poster Sessions & Meet the Sponsors				
	<i>Room: Jacob Pronk</i> <i>Chair: Michael Wilke</i>	<i>Room: Koos Speenhof 1</i> <i>Chair: TBA</i>	<i>Room: Goldbeck</i> <i>Chair: Deniza Mazevska</i>	<i>Room: Koos Speenhof 2</i> <i>Chair: Brian McCarthy</i>	
11.30-12.30	General Casemix 2	Panel Discussion on Casemix and Expensive Drugs	Health services planning using casemix	Benchmarking and comparisons	
	The implementation of an All Patient Refined DRG grouper in Portugal Claudia Borges		Profiling high utilizers in social and health care Tomi Malmström	A National Cost Collection: Bigger, better and more believable Kevin Ratcliffe	
	Reducing risk events using case-mix system in geriatric facilities Jiro Okochi		The Evolution of Activity Based Management Performance Reporting in NSW – from Top- Down to Predictive Modelling Alfa D'Amato	Costs of acute admitted patients in Australia's public hospitals in 2011-12 Daniel O'Halloran	
	Readmissions in Germany: A New Analytic Approach Beyond Current DRG Payment Rules Marc Berlinguet		Development of a Model to Predict Demand for Rehabilitation from Activity in Acute Care AR- DRGs Janette Green	Comprehensive Ambulatory Classification System 2 - Doing More With Less Holly Homan	
12.30-13.00	Official closing of the Conference & introduction of the PCSI 2016 Conference <i>Chair: Dana Burduja</i>				
13.00-13.30	Lunch				
14.00	Excursion: Madurodam or Royal Delft Experience (optional)
